Convicted Slayer Wins Fight for Life Term as Gov. Young Acts Following Many Appeals

SAN RAFAEL, March 9. - (Exclusive)-Although Scott C. Stone escaped the hangman's noose for the slay-of May and Nina Martin of Los Angeles through the clemency of Gov. Young late today, he did not escape a night in the death cell at San Quentin prison. He was placed in the cell at 5 p.m. and will not be transferred out until tomorrow morning. Stone, it was said at the prison, has not yet been informed of the change in his sentence.

SACRAMENTO, March 9. (P)-The death penalty im osed on Scott C. Stone in Los Angeles, which was to be carried out on the gallows at San Quentin prison Friday mornng, today was commuted to life imprisonment by Gov. Young. The commutation, however, carries with it the provision that he never can be released on parole. Gov. Young in announcing the commutation declared that while he believes Stone may be guilty of the murder of the Martin sisters, May and Nina, 12 and 8 years of age, respectively, the records do not show that

I DON'T know what kind of tobacco you are making 'em with now, and I don't care. I want to alip you this piece of information, to wit: You never tasted a home-rolled cigarette that could come within a mile of one made with Prince Albert! Read that again.

That's because Prince Albert is the grandest tobacco that ever nestled neat in a makin's paper. P. A. is crimp-cut. It stays put in the paper while you're rolling it. Doesn't spill all around.

And that taste! Unlike anything you pipe on my say-so.

ever experienced in the home-rolled line. Sweet and mellow and mild, with "come again" written all over it. No two ways about it-better tobacco just naturally makes a better cigarette. Get some P. A. today and get rolling!

Prince Albert is double-barreled smokejoy . . . equally good in a cigarette or a jimmy-pipe. Many a fellow who wanted to smoke a pipe but "didn't dare" has become a pipe-regular since discovering P. A. Give Prince Albert a whitl in your

TIMES READERS

I'm the gink with the mournful I'm the gink with the mournful philosophy at funerals. I am always ready with pleasant little statements such as, "Well, we never know when we are to go," and "It was only a little while ago that he was strong and healthy We never know who is next." Those are some of my favorites. I alt around at a funeral and speak them to all who will listen Of them to all who will listen Of course, I contribute to the general glodm. I make depression thicker, but I just must tell you my phil-osophy. "Well, we've all got to go." I'm so cheerful.

A STATEMENT

Entire six floors: SIXTH & BROADWAY

To the Public and to All Members of the Sea Breeze Beach Club

OWING to the unfavorable publicity given to the financial and other difficulties of certain Beach Clubs, the executives of the Sea Breeze Holding Comv teel warranted in facts hereinafter contained. The publica-

tion of these facts, we believe, must convince the most skeptical that the policy adopted by the executives of the Sea is based on sound business judgment.

The Sea Breeze Holding Company was organized for the sole purpose of building First: and operating a Club-not a Hotel.

Second: The entire building and equipment cost of Sea Breeze Beach Club is approximately One-Third of the cost entailed by other Beach Clubs.

Third: No memberships were sold without an income feature. Sea Breeze Beach Club was organized and began the selling of memberships in June, Fourth: 1926. The remarkable progress that has been made in practically eight months time, under adverse conditions, is shown in the following statement:

A ... Moneys already spent for the following items: Rental of property, bulkhead; excavating, Pan Pacific Construction Company foundation contract; Architect's fees; Contractor and labor; taxes and other minor expenses for property. \$ 55,000.00

C- Service Charge due upon notification of formal opening of Club,

D— Cost of Building, including furnishings and equipment, approximately ... 300,000.00 Approximate amount of moneys to be left on hand as working cash to

THE finances of the Club have been handled very carefully and a conservative policy employed in building operations. The major portion of the Club should be ready for use by the members by June 1st. This conservative policy will enable us to complete our program WITHOUT THE NECESSITY OF BORROWING MONEY.

MEMBERS AND THE PUBLIC ARE IN-VITED TO VISIT THE PROPERTY ON PALI-SADES BEACH ROAD AT THE FOOT OF CALIFORNIA AVENUE. SANTA MONICA: AND SEE FOR THEMSELVES THE BUILD-ING ACTIVITIES.

The executives feel that inasmuch as they are doing their part to make the Sea Breeze Beach Club all you expect to find in a high-class Club, they are entitled to the full support of every member. Consider Sea Breeze Beach Club—YOUR CLUB. Do your part to make Sea Breeze Beach Club the foremost institution of its kind in this community.

DAYTON (O.) March 2. (P)—Skill of Lieut. Z. O. Batten, McCook: Field test-pilot, in landing a "dead" transport plane on Wilbur Wright Field in pitch darkness saved himself and three figure from possible injury and death last night.

Details of the misshap became known today. The transport plans, in which the fivers were making a night photographic test over the city, was forced down by engine trouble. With nothing to guide him except the intuition of a skilled pilot, Lieut. Betten, who was at the controls, steered the ship toward wilbur Wright Field and landed without a jar. The pians was laden with flashlight bombs.

In the plane with Batten were Lieut. George Goddard and Capt. A. W. Stevens, McCook Field photographic experts and Lieut. D. E. Mo-Donald of Washington.

Pathological laboratories do not depend upon guess-work. They have means by which they can count the number of red corpuscles in a drop of blood. Every cubic millimeter of the normal, healthy human's blood should contain approximately 5,000,000 red corpuscles—those tiny red particles which flow along the blood stream, giving color to the blood, carrying nourishment to the cells of the body, and working against disease.

... the power of perpetuating our property in our families is one of the most valuable and interesting circumstances. — BURKE

T RANCHO SANTA FE a new American tradition is being born. Successful Americans from all over the nation are establishing family estates on the broad sunny mesas of

an old Spanish grant.

The 9000-acre project is sponsored by the Santa Fe Railway, which is primarily interested only in the creation of traffic. Hence prices are low.

Land is sold in various sized estates, from a few acres up to fifty. Immediate development is required—the building of a Spanish-type home, or the planting of citrus or sub-tropical fruits.

Architecture and landscaping are rigidly controlled for the sake of community uniformity. There is widest latitude,

however, for individual expression. In fact, an architectural staff with a wealth of authentic ideas gained from visits to Latin-speaking countries, is a permanent source of aid and inspiration.

A qualified organization is equipped with every facility for enhancing the practical and esthetic value of the community. Over \$4,000,000 has already been spent in a Community Center of charming Spanish-Colonial structures, in homes and in other developments.

If the idea appeals to you of establishing a permanent family home in a unique community of exquisite natural loveliness, between the mountains and the sea, where all your neighbors have kindred permanent interests, and if you are qualified to carry out a definite investment program, mail the coupon below for full information.

The surplus mounted to \$5,832,346, or more than \$500,000 better than 1925. Dividend requirements were \$1,200,000. Due to the 1926 drought, the 1927 crop, now being harvested, will yield about \$6,000 tons, which President F. F. Baidwin termed slightly below par. The increase in prices during the last few months, rowever, is ex-pected to offset it and the tone of 1937 business financially is considered

For Second Liberty Loan Funds

According to recent newspaper announcement, the Treasury Department plans the retirement at par of over \$3,000,000,000 Second of over \$3,000,000,000 Second Liberty Loan 4½% bonds, on November 15 of this year. On March 15, bonds of this issue will be exchangeable under the Treasury Department plan, for a new issue of 5-year Treasury Notes, yielding 3½%.

For the consideration of the many investors who desire to reinvest their Liberty Loan funds at a higher rate than is offered by the new Treasury Notes, we suggest the following high-grade issues, yielding over 5%.

These bonds are among the outoutstanding public utility investments of America, and offer a high
degree of marketability and collateral value. In every case the
Normal Federal Income Tax up to
2% is paid by the issuing corporation, and bonds are free from California Personal Property Tax, or
this tax will be refunded on application.

At the present time Second Liberty Loan Bonds will be accepted at slightly above par in exchange for any of these bonds. We shall be pleased to furnish you more detailed information regarding these issues without any obligation. Call, phone MUtual 7171, or write.

HE development of the great American oil companies, combining, producing, refining and marketing organ-as that reach out into all corners of the world, constitutes one of the most remarkable pages in the story of our economic growth.

The wonderful advancement in this industry has been brought about by the combination of keen vision and astute judgment, which is the dominant characteristic of American business life.

Thousands of far-sighted investors have shared in this prosperity, and the securities of sound and established petroleum companies have been the backbone of many of this country's greatest fortunes.

The market remained dull throughout the entire season. Even the salis were unaffected by the salisfactory traffic. The Cammell Lair Ship Building and Iron and Steel Company suffered a loss of \$73,000 in 1926 and plaid no dividends on the preferred or ordinary shares. Courtaulds was sold on yesterday's nest and Dacenaber 14.700, due to seather shared the lower 'evels.

A great-mystery was made of yesterday's buyer of gold and various unitrue assections were made including an alleged story that the Bank of Trance was the buyer. All these rumons were disregarded including the one that the recent arrival of bar gold was from Russia as such was not the case.

Liverpool apots went of 5 points from yesterday's prices to 7.84d. for middling. Future advasficed 1 to 3 points, but lost that and closed baregold was from Russia as such was not the case.

Until the size of the crop is defi-nitely fixed and a better line can be had on the extent of the reduction in acreage and start for the new crop, 15-cent cotton still loose high enough for the heavy surplus that will have to be carried over.

6% Certificates Which Suit Thrift Champions

-Will they suit you?

Spoiled by prosperity may be the trouble with some . . but not the 5,500 clients of the Mutual Building and Loan Association of Pomona.

They ARE prosperous. Most of them live in that prosperity . . . Pomona Valley. They grow good crops and sell at good prices. They have flourishing business houses . . . which get bigger every year.

But their thrift grows with their prosperity. They hold State records for per capita thrift accounts . . . and per-centage of population having accounts. They are thrift champions.

We'd rather be judged by the character of our clients than by any other standard. As long as our thrift service our 6% Cash Reserve Certificates ... and other forms of investment attract the thrift champions of California . . . we know they meet the requirements of the shrewdest, keenest, most conservative investors in ANY community.

Our 6% Cash Reserve Certificates are legal for trust funds and savings banks pay interest quarterly or semi-annually—and are conveniently withdrawable on quick notice. Let us tell you more about them-in our office, or by mail or phone.

about 180,000 barrels difference between them, that being in favor of
the longer month, which had a threeday margin to go on.

During January there were 2,792,293 barrels shipped from here, while
during February the shipments total of 18,429,900 barrels for the first
two months of the year.

Fuel ell shipments topped them all
in February, amounting to 4,791,021

\$3,000,000 Mortgage Bank of Colombia

Twenty Year 7% Sinking Fund Gold Bonds of 1927

Interest payable February 2 and August 1

A cumulative sinking fund commencing August 1, 1927, operating semi-annually, is calculated to retire
the entire issue by maturity through purchases in the open market
below par or drawings at par

Redeemable (otherwise than through the sinking fund) as a whole or in part on any interest payment date at los and accrued interest on or before February 1, 1930; thereafter the premium decreating 1% per annum to and including February 1, 1930 and redeemable after that date at the principal amount of the bonds and accrued interest.

Coupon bonds in denominations of \$1,000 and \$500, registerable as to principal only,

Principal and interest payable in New York City at the principal office of International Acceptance Securities and Trust Company, Trustee, in gold coin of the United States of America of or equal to the standard of weight and fineness existing on February 1, 2927, without deduction for any taxes, present or future, lavied or imposed by the Republic of Colombia or by any taxing authority therein or thereof.

The following is summarized from information communicated to us by the Marigage Bank of Colombia:

The Mortgage Bank of Colombia (Banco Hipotecario de Colombia), is the oldest and largest mortgage bank in Colombia. It was incorporated in 1910 pursuant to the terms of a contract national government. Located in Bogota, its business extends throughout the Republic of Colombia and consists chiefly in the granting of long-term loans secured by first mortgages on improved eity and agricultural property and in making secured loans to the government and governmental subdivisions.

All mortgage loans which the Bank makes are, and have been since the foundation of the Bank, payable in

The total value of property mortgaged to the Mortgage Bank of Colombia as security for loans, at the original appraised value of such properties, amounted on February 1, 1927 to \$28,740,248. Mortgage loans against these properties totalled 37.9% of this amount or \$10,904.599, while mortgage bonds (cedulas) outinted to \$9,411,130 or less than one-third (32.7%) of the pr by the Bank on the entire amount of mortgage loans made since the Bank's organization have been but four handredths of one per cent (.0004)/

The proceeds of this loan will be used to retire outstanding mortgage bonds of higher coupon rate, to reimburse the Bank for mortgage loans already made but against which mortgage bonds have not as yet been issued, and to effect additional mortgage loans.

The bonds of this issue are the direct obligation of the Mortgage Bank of Colombia. Under express provisions of Colombian law, all mortgages held by the Bank constitute specific security for its outstanding mortgage bonds. The amount of such outstanding bonds is by law limited to an amount not exceeding the mortgage loans in force. Further, by the terms of the Trust Agreement, under which these bonds are to be issued, the Bank has agreed to make no mortgage loan in excess of 50% of the appraised valuation of mortgaged property except that such loans may be made up to a maximum of 60% of such appraised valuation, provided the loan is approved by two-thirds of the Board of Directors of the Bank,

The Mortgage Bank of Colombia, during its entire existence has punctually paid principal and interest on all of its outstanding bonds,

Never well. Always tired and fagged out. Beauty tossed away by neglect. To be beautiful and to keep youth the system must be free from poisonous backwash of constipation which often causes dizzy spells. For 20 years, Dr. F. M. Edwards gave his patients, in place of calomel, a compound of vegetable ingredients mixed with olive oil, naming them Dr. Edwards Olive Tablets. Known by their olive color. They free the system of poisons that ravage health, energy, beauty.

the right of way of the Pacific Electric line.

Discussing the abandonment of the
Marbor Boulevard plan, General Manager F. B. Cole said that it was impossible to carry it through as originally proposed because of the attitude of the War Department. Another reason for the board's action,
he said, was the plan to shorten
up the south arm of the west basin
and to shorten the Wilmington and
San Pedro road.

He declared that the west basin
was one of the most desirable basins
for shipping in the harbor area and
that at some future date the Southern Pacific bridge would undoubtedly
have to come out, probably under an
order by the War Department.

The War Department, he said, was
apparently adverse to any construction that might tend to impede shipping.

Envy should perhaps be properly classed as a mental maindy. It affects individuals, communities and peoples, seeking to de-stroy what it cannot possess or surpass. It is the shadow of the Lincoln memorial and the Washington monument. Ambition, emu-lation, may be laudable; but the envious are to be avoided as the carriers of mental rests.

Envy foments wars of classes and of peoples. It is gangrene forming about an open wound.

If it serves any good purpose it is that it forms the measure of success; for, like death, it loves a shining mark.

about that impositions a thin vapor of vapidity.

A prise fight may be undertaken according to Queensberry rules. That is a game. War upon an enemy ought logically to be waged in the most rapidly destructive way that may be devised; whether that enemy be a person or a nation.

Rules controlling the use of chemicals and designating gun elevations, are plain rot, whether enunciated by professional militarists or underdone statesmen; neither of whom have ever known how to go about analysing the underlying motives and ambitions that inspire the war system and try to make of it a normal, "civilized" institution, with its aavagely founded departments and secretaries.

liquid diet for a much longer pariod than that with benefit, but it is not necessary.

Now what happens? For three days stomach has been hunting something to cuddle; it has contracted and contracted to find something to wrap itself around and there has been precious little. Now you offer it a small sized meal and stomach seizes it so gratefully and sends up word so soon that it has enough, that you are thrilled. You realize that your stomach is shrunk and you are going to be able to control your appetite because of that fact.

(Our thin friends we have to advise to do just the reverse of this. I a mooming to them a little later.)

The shrinking of the stomach has other fine results besides that of helping you control your appetite. Among the most important are the following: The liquid diet gives the system a chance to get a rid of a lot of the poisons which have accumulated from an excess of food for your needs, and you will immediately feel much better; and, oh joy, you will lose from fire to ten pounds of weight! Ain't it a grand and giorious feelin?

The loss is not all fat, of course, and the scale may run up a stiffe wen when you are on your reducing

three hours. One ounce of whole milk is twenty calories, and skim and buttermilk free from cream is half that amount, or ten calories. Or if you do not like milk in any form, drink orange juice; one ounce is approximately fitteen calories.

If you cannot get oranges you may —if you chew so thoroughly that it is reduced to a liquid before you swallow—ast two moderate sized apples instead. One moderate sized apple is fifty calories.

Aren't You Earning Enough?

You've often heard it said, of course, that the way to make money is to have a business of your own. Then you are working for yourself and your money is working for you, too.

Frequently only a few hundred dollars will purchase or gain control of a business enterprise yielding a comfortable living and betantial profits besides. In a growing licality like Southern California, such opportunities (and of many kinds) occur daily. They are listed under "Business Opportunities" in TIMES WANT ADS.

TUNA FLEET TO **HUNT IN SOUTH**

Shortage of Fish Speeds Up Opening of Season

Plan Early Departure to Cape San Lucas Banks

More Than Hundred Craft Will Join in Expedition

prompted by the unprecedented demand for fish, will this year hasten the opening of the tuna season by traveling 1000 miles south to Cape San Lucas to meet the fish on their annual northward migration. Within the fortnight more than 100 boats will be on or en route to the southern banks.

John E. Heston, pioneer of the long-distance fisheries, announced yesterday that he will have twelve vessels in tender service alone this season. The first of these, the three-masted refrigerator schooner Oceania Vance, will sail tomorrow for the cape under command of Capt. Adolph Havermann.

Mr. Heston has also secured the former Nova Scotia four-masted fishing schooner Marion G. Douglas and the American three-masted schooner Sequois for tender service, in which latter vessel he is installing new Diesel engines. for auxiliary power.

In addition the Heston tender fleet will this year include the new Diesel sea-going steel tig John F. Craig, the former Alaskan halibut schooner Progress and the motorships Heston and Jeanette R.

"This new program will permit us to fish steadily from March until June, following the fish northward, and then in local waters until September," said Mr. Heston. "Canneries want more fish this year than at any time since the founding of the local." June, following the fish horthward, and then in local waters until September," said Mr. Heston. "Canneries want more fish this year than at any time since the founding of the local industry, due to large foreign and eastern contracts offered and to last year's short yield."

Several good hauls of yellow-fin turns have already arrived from Mesican waters, although recent rough weather off the lower West Coast has retarded the efforts of the fleet.
